“The South Shore Regional Vocational Technical School District Committee shall enroll in the South Shore Regional Vocational Technical High School those students from the district member towns who, in its judgment, are best suited to profit from the instructional program offered.”

The number of openings for grades 9 -12 will be determined by the South Shore Regional Vocational Technical High School Administration. South Shore Regional Vocational Technical High School is in compliance with State and Federal legislation guaranteeing equal access to public educational institutions. Using the following guidelines, it is the responsibility of the admissions committee to insure that the member town quotas are met to whatever extent possible, and such quotas will be applied against the total openings for that school year. When a town has unfilled “seats” and all eligible applicants from that town have been accepted, the remaining “seats” will be redistributed amongst the member towns that have eligible applicants but have filled their quota.

TOWN QUOTAS ARE DETERMINED EACH YEAR USING THE FOLLOWING FORMULA:

$$\frac{\text{Town Grade 8 Enrollment (October 1}^{\text{st}})}{\text{Total District Grade 8 Enrollment (October 1)}} = \text{Town's \% of the incoming 9}^{\text{th}} \text{ grade class}$$

VIII. **SELECTION PROCESS**

The Admission Committee at South Shore will examine, discuss and make recommendations for action on the applicants.

The Admission Committee considers scholastic achievement, attendance, school behavior, three recommendations from the sending school and interview results. Applications are reviewed, processed and assigned points by grade level.

After a point total for each resident applicant has been determined, all resident applicants are placed in order of their “point total”, grade level and town of residence. Resident applicants are then accepted by town, by grade level in order of the point total they have achieved. The resident applicant with the highest point total is accepted first, the resident applicant with the second highest point total is accepted second, and so on until all seats are filled in the specific grade level. All resident applicants are accepted, declined, or placed on a waiting list. If openings occur, the seats are filled by accepting resident applicants from the waiting list. These resident applicants, like those accepted earlier, are accepted in order of their place on the waiting list, determined by the total points given according to the selection criteria. The waiting list is valid for the current school year.

Non-resident applicants are evaluated using the criteria in this Admission Policy and will be placed on the waiting list after the resident applicants. Non-resident applicants on the waiting list will only be accepted if all resident applicants on the waiting list have been accepted.

Applications received after April 1st will be evaluated using the same criteria as other applications and their composite score will be integrated in rank order on the established waiting list.

All applicants whose applications are received by South Shore by April 1 are notified of their status by a letter to their parents/guardians and their local school Guidance Counselor by mid-May. All applicants will receive a letter informing them of their status.

IX. **Enrollment**

In order to enroll, applicants must have been promoted to the grade they wish to enter by their local school district and they must pass English language arts or its equivalent and mathematics for the year immediately preceding their enrollment in South Shore Vocational Technical High School

X. **Program Placement**

All ninth graders who enroll in South Shore Vocational Technical High School participate in a vocational technical exploratory program designed to help them learn about their talents and interests relative to a variety of different vocational-technical programs.

Students will indicate on their application what vocational program areas they are interested in exploring. The areas a student explores will be determined by a combination of student interest and the space available within each vocational area. At the beginning of the exploratory program and during each exploratory cycle, students will meet with a guidance counselor to discuss placement for the upcoming exploratory cycle. Every attempt will be made to encourage and support students in exploring non-traditional vocational areas for their gender.

Each student’s performance in the vocational exploratory will be assessed in each vocational program that they explore. The areas to be assessed are Conduct (42%), Task Completion (25%), Personal Safety and Responsibility (25%) and Attendance and Punctuation (8%). Students are assessed in each area in accordance with the rubric found below.

The student’s vocational placement at the conclusion of the exploratory program will be determined by the student’s exploratory evaluation in the vocational program they have chosen. Those students with the highest rating (in the chosen vocational program) are selected to fill the

available opening. The remaining students are distributed to the trade of their second choice. The process is repeated until all students are placed in a vocational trade area.

The performance of every ninth grade student will be evaluated and they will be counseled throughout the exploratory program by the South Shore staff to assist in determining the appropriateness of their career and educational choice. Options for the student could include: continuation in the trade area; explore other programs, change to a more appropriate explored trade area.
